Sex Addiction – Fact or Fiction? Karen Lloyd

Saturday, 18th June 2016 - 10 am – 4 pm
St Nicolas' Hall, West Mills, Newbury, RG14 5HG

Introduction

In today's digital world we see reports in the news on a regular basis of out-of-control sexual behaviours, often attributed to the errant celebrity '*caught with his trousers down.*' In the psychotherapy and counselling world sex addiction is fast becoming a common presenting problem. This workshop aims to explore the facts and dispel the myths of this 'process addiction' (in contrast to 'substance addiction'), and will provide useful insight for therapists. We will address the growing problem of sexually compulsive/addictive behaviour, love and porn addiction, and sexual acting out behaviours, both on and off line.

Topics to be covered will include

- What is Sex Addiction? Definition, Neuroscience, Ethical Issues
- Myths and Reality
- Understanding Causes of Sexual Addiction
- Signs of Sexual Addiction / Basic Assessment
- The Cycle of Addiction
- Guidelines for Recovery
- Recognising Triggers & Relapse Prevention
- Impact on Partners
- Looking at Case Examples
- Further resources and recommended reading
