## Bramham Events and COVID-19 Update 18 March 2020

**We are exploring the possibility of switching our upcoming live events to online delivery.  
Please bear with us whilst we work on this.**

**An email will be sent to all delegates who have existing bookings as soon as possible.**

The current coronavirus pandemic is a crisis none of us have experienced before. Following most recent government guidance, we have made the difficult, but hopefully understandable, decision not to hold training days with face-to-face groups for the time being, however small.

We are also concerned about the likelihood of increasing mental health issues amongst our communities as a result of growing (and possibly enforced) social isolation and inevitable financial hardship for many of us. Therefore, we believe that as therapists we must be available as much as possible for our clients during this time, and to keep up with our usual forms of support as well as CPD.

This is why we are looking into transferring our events to participatory webinars to include PowerPoint slides, training videos, interactive Q&A sessions and discussion, and more, to allow us to come together and connect.

Further details will follow as soon as we can, and an email will be sent out to all delegates who are currently booked with us. Please be patient and wait for this information, as there is a lot we need to understand and assimilate, in addition to trying to respond to daily enquiries.

We are a very small business which, like other small businesses currently, is potentially at risk. You will find free summaries (often including detailed learning points) of all our past events on the events page of our website. In return, we ask our customers to be supportive in these trying times.

We wish to continue with our CPD provision in order to support our therapeutic community which has grown steadily over the past 7 years, and ultimately to help inspire excellent therapy provision to the public.

Thank you for your support and understanding.

Wendy Bramham MBACP (Snr Accred) BA(Hons) WPF  
Proprietor/Clinic Director
